THE ARTICLE

Haiti – International Rescue

Help from around the world is now arriving in Haiti following the devastating earthquake that hit the country recently. The tiny Caribbean country that is one of the poorest in the world was hit by the 7.0 magnitude earthquake on January 12. More than 3m people have been affected. President Obama has been joined by former Presidents George W Bush and Bill Clinton in organising help. Together they are spearheading a fund raising drive to help survivors of the Haiti earthquake and are urging people to send cash to help the relief effort. Meanwhile, authorities in Haiti now say as many as 200,000 people may have died following Tuesday's earthquake. It has prompted a worldwide humanitarian response from different governments as rescuers race to save people still in the rubble.

US Secretary of State Hilary Clinton flew into Haiti on Saturday carrying relief supplies and to help relief efforts. Haiti's government gave control of its main airport over to the U.S. to bring in flights from around the world. She met with Haitian President, Rene Preval and Prime Minister Jean-Max Bellerive, their officials and US civilians and military personnel involved. The Presidential Palace was destroyed in the earthquake so the Haitian President has been living and working in the judicial police headquarters.

Trucks piled with corpses have been carrying bodies to hurriedly excavated mass graves outside the capital Port-au-Prince but thousands of bodies are still believed to be trapped under the rubble. The disaster has brought out the best and worst in human nature. With large parts of the capital destroyed anarchy soon started and there was total chaos. Crime soured. The country, which was pretty lawless before the earthquake, has seen mass looting by gangs of men. Many criminals are free since the city's prison collapsed. A mob of around a thousand people on Saturday was fighting for goods in destroyed shops in the centre of Port-au-Prince. People were fighting, hitting each other & throwing stones at each other in the fight to live.

Haiti – International Rescue – 25th January 2010

Meanwhile many tales of destruction are being given by eyewitnesses. Of tiles beginning to shake, the ground wobbling, of buildings cracking and falling and of people trying to get out before they were buried alive. Other tales include of survivors being plucked to safety, of bodies being extracted from collapsed buildings and of there being despair all around. The quake lasted a minute but for many felt far longer. The epicentre of the quake being 15km from the capital. The port in Haiti was also destroyed; the jetty collapsed. It will take time to rebuild so ships can dock with essential supplies. It will be essential for troops to rebuild the port as soon as possible. The relief effort has been hampered by the damage to the infrastructure, as the roads split apart and buckled.

A hospital ship, and more than 10,000 US troops have been deployed to help. Aid groups around the world have rescue efforts underway. Governments and airlines worldwide are mucking in to help the survivors in Haiti. Airlines have transported medics and essential supplies to aid the survivors who need temporary shelter, fresh clean water, food and medical care. Heavy lifting equipment is desperately needed. The UN estimated that 2m people need immediate food and water aid. It launched its own appeal to raise more than US\$562m. Meanwhile tent cities have sprung up in football stadiums and other places that are away from buildings that were likely to collapse. On Saturday a magnitude-4.5 aftershock hit the city causing more damage. So far 50,000 bodies have been collected. The red cross has set up a website for relatives abroad who want to contact relatives in Haiti. However, with no electricity sending e-mails there is for now difficult. The United Nations has said the disaster in Haiti is larger than the Tsunami that hit the Pacific in 2005, and that was a huge disaster. Two of its top officials were killed in the quake. The city has thousands of orphans who will need adopting. Foreign governments have been urged to adopt an orphan on humanitarian grounds. Chaos and lack of food resulted in many aid workers in the orphanage initially trying to leave due to hostile crowds. Outside the capital, thousands of homes were also destroyed and it maybe days before they receive any help. **This tragic story is changing daily...**

EXERCISES

1. Haiti: Where is Haiti? (**Look on Google maps!**) What country is connected to Haiti? What other countries are close to Haiti? Think of 3 things you know about Haiti. Go round the room swapping details.

2. Earthquakes and volcanoes: What is an earthquake? What is a volcano? Go round the room swapping details.

3. Dictation: The teacher will read 4 to 6 lines of the article slowly and clearly. Students will write down what they hear. The teacher will repeat the passage slowly again. Self correct your work from page 2 - filling in spaces and correcting mistakes. Be honest with yourself on the number of errors. Advise the teacher of your total number of errors. Less than 5 is very good. 10 is acceptable. Any more is room for improvement! More than 20 - we need to do some work!

4. Reading: The students should now read the article aloud, swapping readers every paragraph.

5. Vocabulary: Students now look through the article and underline any vocabulary they do not know. Look in dictionaries. Discuss and help each other out. The teacher will go through and explain any unknown words or phrases.

6. The article: Students look through the article with the teacher.

The other student is an aid worker from the *United Nations / Red Cross*. The DJ interviews the *UN / Red Cross* person who describes what they have seen following the earthquake.

9. Let's debate: In pairs. Students A are a person in Haiti. You think the international help is too slow. Students B who are in the U.N. think otherwise.

Haiti – International Rescue – 25th January 2010
